SOURCE [] 25X1X

1. On 25 August, 1953, source observed 22 new 3-axle trucks at the KVP installation in Fuenfeichen. []

25X1B

[] Source learned from a KVP that the trucks had come from Leipzig.

25X1B

2. On 29 August, the installation quartered an estimated 600 KVPs most of whom wore red-bordered epaulets. About 200 men had allegedly been detached by the unit for harvesting operations. Some of the detached personnel returned daily to their quarters. Source noticed two motor boats, one of them marked by No 214, in the garages north of the installation. These boats were, allegedly, daily trucked to Lake Tollensee.

25X1A

[] Comment. Available information indicates that the KVP installation in Fuenfeichen exclusively quarters engineer troops. Red service colors, as worn by infantrymen, are reported for the first time.
